FLE 2000

FLE2000 system is versatile, adaptable, attractive and BOLTLESS.

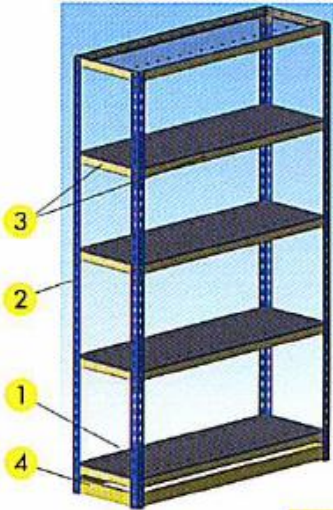

This system can be used in many applications e.g. shops, offices, homes or warehouses etc. and is light or heavy duty to suite your requirements.

An additional advantage is that you may utilise steel shelving or timber decks to suite your needs.

The FLE2000 shelving system requires no skill or tools to assemble.

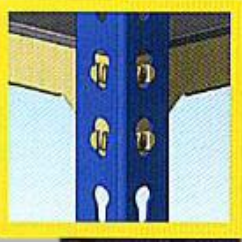

This unique system can be assembled in a fraction of the time compared to the conventional bolted systems available, yet is more robust and has a higher carrying capacity.
